

Quiz #8. A compound truss is loaded as shown. Determine the forces in members EF , DE , and GJ .

By *X-joint properties* and *rigid-body principle*, we may neglect the pair of forces F_{BH} and F_{FG} ,

as well as the pair of forces F_{CI} and F_{FJ} , in the *FBD*. ①

$$F_{EF} = 46.9 \text{ kN (C)} \quad \textcircled{2}$$

$$F_{DE} = 25.5 \text{ kN (C)} \quad \textcircled{2}$$

$$F_{GJ} = F_{EJ}$$

$$F_{GJ} = 5.2 \text{ kN (C)} \quad \textcircled{2}$$
