

# Homework Grading

## MEEG 4103 Machine Element Design

- The grader will choose to grade only *one* solution among those to be submitted.
- The possible credit for each solution chosen for grading is 3 points. The deduction of points in the grading is guided by the following:
  - Not engineering paper -0.5
  - Not pencil -0.5
  - Not neat -0.5
  - Lacking pertinent sketches -0.5
  - Final answer(s) with incorrect significant digits or units -0.5
  - Incorrect procedure or incomplete solution -0.5 to -3
